Thank you for reaching out. I understand that contacting someone for intuitive support often comes during an incredibly difficult and emotional time. Please know that I approach every inquiry with compassion, respect, and a deep commitment to supporting those seeking answers, clarity, or closure.

Below is an outline of how I work, what I require to begin, and what you can expect from me moving forward.

How I Work

I offer intuitive and mediumship support to law enforcement agencies, investigative teams involved in:

- Missing persons cases
- Locating the missing bodies of victims
- Cold cases
- Unresolved or suspicious deaths
- Situations where insight into timelines, movements, behaviours, or overlooked details may help bring clarity

My work includes intuitive impressions, energetic tracking, and, when appropriate, mediumship communication. These insights are offered to **support** investigative efforts and to help illuminate areas that may need further attention.

I treat every case with utmost sensitivity, confidentiality, and grounded professionalism. My goal is always to assist, never to overwhelm or give false hope.

Information Needed to Begin

If you wish for me to assess a case, please provide:

- **Your name**
- **Your email**
- **The first name only** of the missing person or victim

No additional details are needed at this time.
This helps me connect gently and respectfully to determine whether I am guided to assist.

What Happens Next

Once I receive the above information:

- I will connect intuitively to the case.
- You will receive a response from me **within the next few weeks** letting you know whether I am able to take it on.

I approach each request with care, and sometimes I am guided not to proceed.
If that is the case, I will let you know with compassion and clarity.

If I am guided to move forward:

- I will contact you with the next steps.
- **Pricing will only be discussed if I am moving forward with the case**, as fees vary depending on the nature and complexity of the work required.

My Approach & Values

Every case is held with:

- Deep compassion for families and loved ones
- Absolute confidentiality
- Respect for all individuals involved
- Clear and grounded communication
- A non-sensationalized, ethical approach
- A sincere intention to support justice, clarity, and healing

My role is to work *alongside* investigative efforts, offering intuitive intelligence that may help bring forward new understanding, direction, or overlooked pieces of the puzzle. If you wish to proceed, please reply with the requested information.

My heart goes out to anyone walking through uncertainty, grief, or unanswered questions, and I thank you for placing your trust in me during such an important time.

With Warm Blessings,

Leila S.
